

MediaShout 5

\$399

MediaShout combines worship presentation tools with the ability to simultaneously edit and play your presentation without interrupting your audience. Designed for volunteers and professionals alike, MediaShout makes it easy to create beautiful presentations and deliver your message to any size audience.

FEATURES & BENEFITS:

- **Song Database** - MediaShout comes with lyrics to 600 classic hymns and worship songs, and connects directly to your CCLI SongSelect™ account, giving you access to over 100,000 more song lyrics. You don't have to type in song lyrics every week, just pull them straight in from the database.
- **Bible Database** - While our competitors charge for each Bible, we give you all 65 versions free. Every verse in every version is at your fingertips, making your preparation time a snap. Search by reference or keyword, and insert verses quickly and easily. You can even display unplanned verses on the fly if your pastor throws you a curveball.
- **Videos, pictures, and more** - MediaShout 5 will play and display virtually any digital content. So you can play DVDs, YouTube® videos, and any video or audio files on your computer. Plus, MediaShout comes with over \$900 in free videos, stills countdowns and more to help you get your media collection started.
